Splunk Professional Services

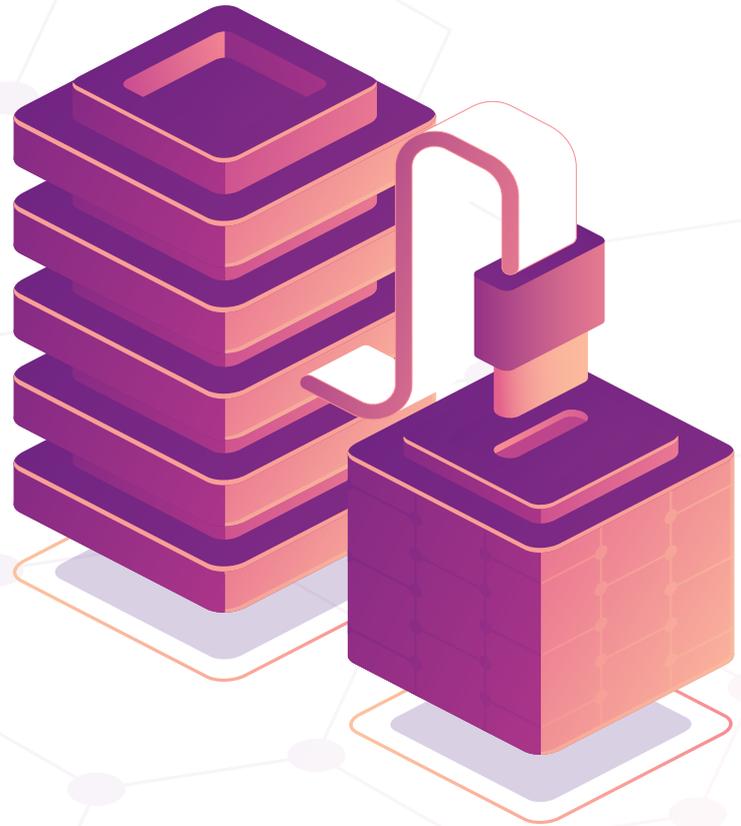

Infigo IS has been doing **Splunk integrations since 2009**. We have **more than 100 clients and over 300 implementations** on three continents with **10000 GB** of daily traffic.

Our projects are mostly confidential or classified, often in highly complex, mission-critical environments. We have worked for smart cities, financial institutions, air traffic control, nuclear power plants, military alliances, governments...

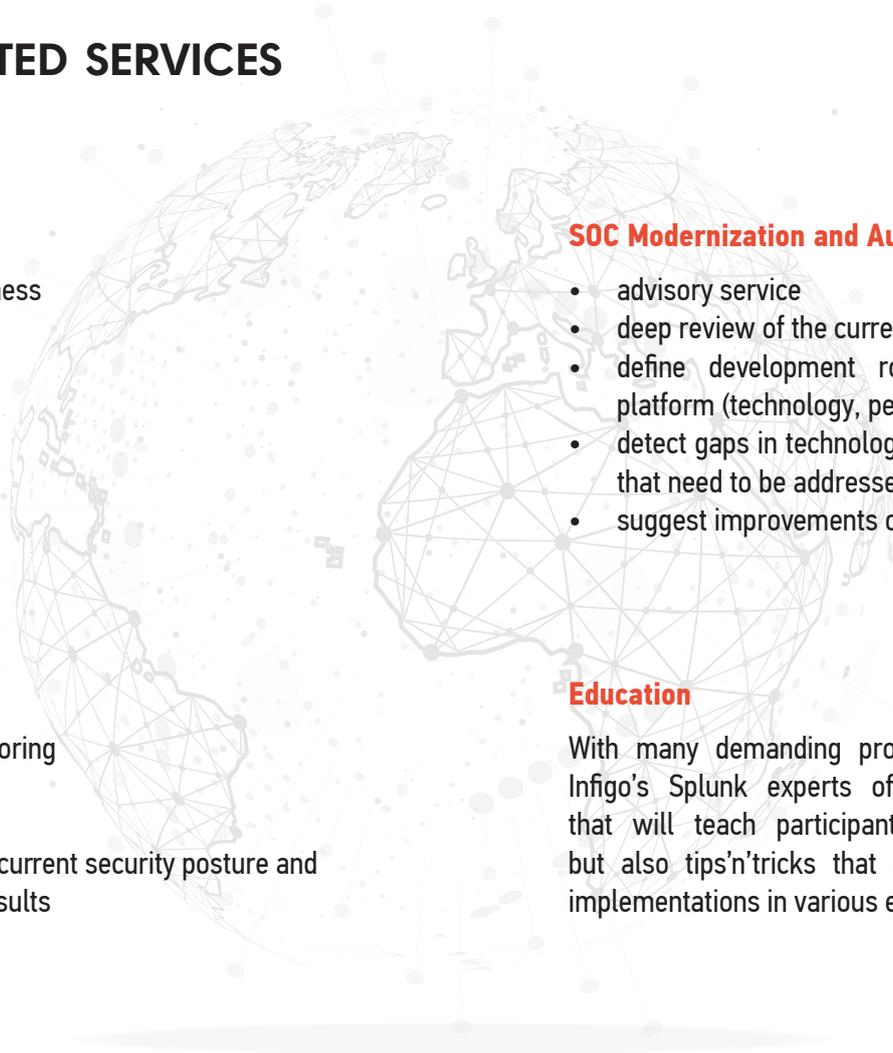

What sets us apart is not only the caliber of our clients, but **our rounded offering** – we do implementation, maintenance, and support.

We work with:

- Splunk Enterprise
- Splunk Enterprise Security (ES)
- Splunk IT Service Intelligence (ITSI)
- Splunk Security Orchestration, Automation and Response (SOAR)
- Splunk User Behavior Analytics (UBA)
- Splunk Cloud Enterprise
- Splunk Cloud Enterprise Security
- Splunk Security Cloud
- Cloud Migration

SPLUNK RELATED SERVICES
